GETTYSBURG, PA., JULY 29, 1870.

52d Year--No. 44.

DODGE'S
PATENT
REAPER AND MOWER,
AND SELF-RAKER.

THIS machine has met with the most complete success. In every section where it has been introduced, it has taken precedence over those machines which have heretofore ranked as first class. It is a perfect self-raker and a superior mower.

A careful examination will convince any one of its superior merits over all others, in simplicity, strength and durability. As a self-raking reaper it has no equal to our knowledge.

The Dodge Rake is attached to no other machine in the United States except to this machine. Built by the Dodge & Stevenson Manufacturing Company, Auburn, New York.

READ THE NOTICE OF THE COMPANY.

To our Agents.—Having been informed that certain manufacturers in Ohio and elsewhere are building Reapers with Dodge's Self-Rake attached, we ask you to furnish us the names of all persons selling or purchasing such machines, as we have never licensed any person or persons to manufacture said Self-Rake, or any part thereof, and will prosecute to the full extent of the law, all persons manufacturing, selling or using said Self-Rake, except of our own manufacture.

JOHN A. DODGE, Pres't.

We have that confidence in this machine, that we are willing to let those wanting Reapers test it with any other machine they may wish, and keep the one that gives the most satisfaction.

Farmers wanting Droppers attached, can be accommodated.

For the benefit of those wanting machines, we would refer them to a few of those to whom we have sold, viz:

Baltimore Lock Hospital.

DR. JOHNSTON,

Physician of this celebrated Institution, has Discovered the most Certain, Speedy, Pleasant and Effectual Remedy in the World for all

DISEASES OF IMPRUDENCE,

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the Victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, aware of Physical Weakness (loss of Procreative Power—Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J., may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS,
IMPOTENCY, LOSS OF POWER,

Immediately Cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits, than by the prudent? Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.

Relief in Six Hours! No Mercury!

Persons Ruined by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of life by the consequence of deviating from the path of nature, and indulging a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Undiscovered Country from whence no traveller returns."

It is a melancholy fact that thousands fall victims to this terrible disease, through falling into the hands of ignorant or unskillful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, in despair leave him with ruined Health to sigh over his galling disappointment.

To such, therefore, Dr. JOHNSTON pledges himself to preserve the most inviolable Secrecy, and from his extensive practice and observations in the great Hospitals of Europe and the first in this country, viz: England, France, Philadelphia, and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.

DR. JOHNSTON,
OFFICE No. 7 S. FREDERICK STREET
BALTIMORE, MD.,

left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

No letters received unless post-paid and containing a stamp to be used on the reply. Persons writing should state age, and send a portion of advertisement describing symptoms.

There are so many Paltry, Designing and Worthless Impostors advertising themselves as Physicians, trifling with and ruining the health of all who unfortunately fall into their power, that Dr. Johnston deems it necessary to say especially to those unacquainted with his reputation that his credentials or Diplomas always hang in his office.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this Establishment, year after year, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the representatives of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is sufficient guarantee to the afflicted.

STILL AHEAD!

HOFFHEINS' REAPER AND MOWER,
One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, and will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work, in all kinds of grass and grain. It cuts lodged grain admirably, which is a great item in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 2 inches in grain; 4 feet 12 inches in grass; has a steel cutter bar, with wrought iron guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIREMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known BRANT RAKE, the best rake ever introduced.

We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

Also, THE KELLER AND EXCELSIOR FANNING MILL, the old Bamborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle screens, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel, or at my residence, 3 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

Albright, Bethke & Schmidt,
Chickering & Son, Bradbury,
Knabe & Son, Hale & Son,

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR
ORGANS AND MELODEONS.

These instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the first to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severest scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

LAWN MOWER.

THE "LANDSCAPE".

OF this little Hand Mower we are prepared to assert that it is the best, simplest and most efficient machine now in the market. It is compact, cheap and durable, and warranted to perform its work with ease and satisfaction. A small boy can operate it as well as a man. It has the double advantage of a Roller attachment, which will be found useful in the rolling of walks, &c.

THE PUZZLED CENSUS TAKER.

BY JOHN G. SAXE.

"Got any boys?" the Marshal said
  To a lady from over the Rhine;
And the lady shook her flaxen head,
  And civilly answered "NEIN!"

"Got any girls?" the Marshal said
  To the lady from over the Rhine;
And again the lady shook her head,
  And civilly answered "NEIN!"

"But some are dead?" the Marshal said

THE SAFEST PLACES.—Lightning has been accompanied by an unusually large number of accidents this summer, many persons having been struck and killed by it. In view of the fatality the electricity of the clouds carries with it, it may not be unadvisable to state a few facts for general benefit. The safest situation during a thunder storm is the basement, for when a person is below the surface of the earth the lightning must strike it before it can reach him and will in all probability be expended in it. Dr. Franklin advised persons apprehensive of lightning to sit in the middle of a room, not under a metal lustre, or any conductor, and to lay their feet upon another chair. It will still be safer, he said, to lay two or three beds or mattresses in the middle of the room, and folding them double, to place chairs upon them. Persons in the field should prefer open parts to the vicinity of trees, etc. The distance of a thunder storm, and consequently the danger, is easily estimated. As light travels at the rate of 192,000 miles in a second, its effects may be considered as instantaneous within any moderate distance. Sound, on the contrary, is transmitted only at the rate of 1,143 feet, or about 380 yards in a second. By accurately observing, therefore, the time that intervenes between the flash and the noise of the thunder which follows it a very near calculation may be made of its distance, and there is no better means of removing apprehensions.

A SPEAKING AUTOMATON.—A German genius has invented a speaking machine which is now on exhibition at Leipsic, and is a masterpiece of inventive art. It is in imitation of all the parts of the human organs of speech, executed in India rubber and wood. A keyboard played like that of a keyboard of a piano, puts the parts in motion, while by a pedal and bellows the required air is sent through the windpipe. The keyboard has only fourteen keys, representing the sounds of a, o, u, i, e, j, r, w, f, s, b, g, d, and sh; the sounds of the alphabet are produced by the same movement and the admission of more or less air. The sound of m and l are produced by closing the lips and pressing the tongue against the roof of the mouth, etc.—The French nasal sounds are produced by a separate contrivance. The laughing, it is said, sounds truly diabolical, and the crowing of a rooster very comical.

THERE is now building by a New York family one of the most remarkable mausoleums in America. It is located in the Sleepy Hollow cemetery, at Tarrytown, but a few rods distant from the humble stone that marks the last resting place of Washington Irving, and is specially designed to commemorate a leading New York city official, who died a year ago. It will be a great marble temple, costing about one hundred thousand dollars, and will be so high that it can be seen from the decks of the North river steamboats, though the cemetery is some distance from the shore. On its completion next fall, the family of the deceased will invite their friends to a formal inauguration of the mortuary monument. The sculpture that will adorn it is now being carved in Italy.

A COSTLY BIBLE.—At the sale of the private library of John A. Rice, Esq., of Chicago, which lately took place at the auction rooms of Bangs, Mervin & Co., New York, Elliot's Indian Bible sold for the enormous sum of $1,050.00. It was bought by a Mr. Bonton, for a collector of valuable books. As this Bible is printed in a language that no living man can read, with what immense satisfaction the owner will open it at his breakfast table, to read a chapter to his family. At the same sale a Dibdin, three volumes—*Biographical Tour in France and Germany*—was sold for $1,920.00, enough to purchase a respectable sized farm.

THE new patent adjustable car is described as having wheels with broad flanges, and run from the broad to the compromise gauge of 4 feet 9½ inches without adjustment, with a stout steel feather, inserted in a lateral groove of the axle, in which corresponding notches are cut. In breaking gauge, the car is run upon a connecting side track to adjust the wheels, which are then held in place by the notches of the axle. A car of this kind recently ran from New York to San Francisco and back, and fully proved the value of the invention. By it freight can be carried between the Atlantic and Pacific without breaking bulk.

THE people at M'Connellsville were thrown into a "broad grin," a Sunday or two since, this wise: There were several persons immersed. The last one happened to be a negro. Just as the minister dipped him under the water, some unchristian fellow in the crowd shouted, "Down goes the Fifteenth Amendment!"

IT has often been observed, at a public entertainment, that when there is anything particular to be seen and everybody wants particularly to see it, everybody immediately stands up, and thus effectually prevents anybody from seeing anything.

MADDER colors red. This is the reason why the madder you get the redder you grow.

IRISH NEGROES.—We once heard a story of some negroes who had mastered the Irish brogue, and played a trick on a boat load of emigrants who were so eager to set foot on the soil of the New World, that they left the boat before their companions.

"An' are yees just over, boys?" said a jet black African, in the richest possible brogue, and with warmest interest as he bent over the wharf where he and his comrades were working.

The strangers regarded him with a look of mingled astonishment and terror, while one of them found breath to inquire:

"An' how is it that yees are black?"

"It's the climate, boys; it's all in the climate," was the answer.

"An' how long did it take to make ye this color?"

"Three years, an' nivir a bit longer."

"Thin, bedad, boys," said Paddy to his countrymen, "let's go back; It's too soon to be divils intirely."

JOHN BOSTON was arraigned in New Orleans for stealing chickens, but stoutly protested his innocence.

"And you deny having taken the chickens, John?" asked the Court.

"Hi, boss, sartin. I never tuk 'em."

"But the officer says he found them in your possession."

"Sar?"

"You had them in your hands when arrested."

"Yes, boss, but I didn't stole 'em."

"How did you come by them?"

"I borrowed 'em."

"The owner says not."

"Well, you see, boss, he was asleep when I went to borrow dem chickens, an' I didn't like to 'sturb him; so I jis tuk 'em, an' was gwine back the next day to tell him."

CIRCUMSTANCES ALTER CASES.—Boy.—Do you want a dog skin?

Tanner.—Was it a fat dog?

Boy.—Oh, yes, he was a fat dog.

Tanner.—Was he very fat?

Boy.—Oh yes, sir, he was very fat.

Tanner.—Very fat, eh? How fat was he?

Boy.—Well, he was the fattest dog I ever seen.

Tanner.—Oh, if he was so very fat, his skin was not good.

Boy.—Well, he wasn't sich an almighty fat dog after all.

A HEAVY CROP.—The San Francisco *Bulletin* says: "A Marysville dispatch states that a farmer at Knight's Landing reaps this year a crop of seventy tons of wheat from twenty-one acres. This will be one hundred and ten bushels to the acre; and if correctly reported is worthy of note. It is added that very heavy crops have been raised upon this land for six or seven years successively. There are probably few farms where such an immense yield as this can be secured; and perhaps fewer still, where the land ought to be worked at such a rate without a change of crops." This is rather strong, even for California.

THE Bradford *Reporter* says: "We see it stated that the political campaign in Minnesota last year, in which the Good Templars ran a separate ticket on the prohibition platform, proved disastrous to that order. Its number of members has since been reduced from 10,000 to 3,000, and its pecuniary loss has been very great. We have not the least doubt but that a similar result would follow in any State or county where the Good Templars allowed themselves to commit such a great mistake."

CALIFORNIA papers chronicle the arrival in New York of a great Chinese physician, Dr. Hi Ramkee Zer. This fellow is a Barnstable (Mass.) Yankee, and his real name is Hiram Keeser, the son of a quack doctor. He went to California in 1860, mixed with and learned the customs and habits of the Chinese in that city, and now turns up as a great medicine man. *Vive* Hi Ramkee Zer!

CLAIMANTS to the property located at the corner of Broadway and Canal streets, New York, valued at $8,200,000, have turned up in a Georgia village. THE *Central Advocate* thus condemns the dogmas of the new free love school: "Women who advocate free love ideas are essentially fallen, and deserve to be classed with 'women of the town;' and men who advocate such ideas, are sadly out of place anywhere, unless it be in the penitentiary."

IT is told of John Wesley that when he saw some of his hearers asleep, he stopped in his discourse and shouted "Fire! fire!" The people were alarmed, and some one cried out, "Where, sir, where?" To which Wesley earnestly and solemnly replied, "In hell, for those who sleep under the preaching of the word."

A BEAUTIFUL waterfall, two hundred and twenty-five feet of sheer descent, is attracting attention on the head-waters of the San Diego River, Cal. It is known as "Transit Falls," and the neighboring scenery is said almost to equal the Yosemite.

"I SAY, ma," exclaimed a little minx of thirteen, "do you know what the pyrotechnical remedy is for a crying infant?" "Gracious goodness me, no; I never heard of such a thing!"—"Well, ma, it's a rocket."

HUNGRY Diner.—"Trouble you for some more bread, landlord. I always eat a good deal of bread with my meat."

Landlord.—"So I see, sir; and a good deal of meat with your bread."

S-SAY! Do you believe in the Knolchester Rockings? Do you love fig's peet? Do you love tamb's lungs? Do you live near the shotteeary's pop? Do you ever ride in a waggage baggon?

GIVE your son a trade and you do more for him than by giving him a fortune.—Franklin.

THE OPPOSING COMMANDERS.

The Prussian army is commanded by the Baron Von Moltke, the same who conducted the campaign against Austria in 1866. He is a native of Guewitz, in Mecklenburg, having been born there on the 27th of October, 1800. Early in life he entered the service of Denmark, but when the question of annexing Schleswig to the German Confederation was agitated, the young soldier declared himself in favor of annexation. So strong was his sympathy with the German side of the question that (at the age of twenty-two) he transferred his allegiance from the Danish Crown to the King of Prussia and at once entered the military service of the latter. His excellent behavior in the subordinate positions to which he was assigned, obtained for him, in 1832, an appointment on the staff. After severe study and much travel in foreign countries and after having been employed by Mahmoud II, of Turkey, to direct the military reforms instituted by that potentate, he was, in 1856, made aide-de-camp to Prince Frederick William, of Prussia. Two years thereafter he was appointed chief of staff of the Prussian army, which rank he holds at present. In the war between Prussia and Denmark, which resulted from the Schleswig-Holstein affair, Von Moltke played a conspicuous part. It was on account of the distinguished service which he rendered Prussia in this contest, that he was selected, soon thereafter, to organize the Prussian army and form a plan of campaign for the war with Austria. The history of that brief but decisive conflict is too well known to require repetition. Von Moltke's plans were carried out to the letter. The Prussians marched only to victory. Sadowa proved the complete overthrow of the Austrian arms, and on the 22d of July, 1866, General Von Moltke arranged a truce with the Austrian commander, during which an armistice was concluded that fully assured the triumph of Prussia.

Napoleon's chief general is the Marshal M'Mahon, Duc de Magenta. He was born at Sully, in France, in July 1808. He is descended, as his name imports, from Irish parentage. His ancestors were partisans of the Stuarts and lost their all in their devotion to the last of that race of English kings. After the downfall of the Stuarts, they emigrated to France and intermarried with the nobility of that country. The father of M'Mahon was a lieutenant general in the French army. The son was educated at the celebrated military school of St. Cyr. At the age of nineteen he was a lieutenant of hussars. Exchanging into a regiment which was to serve in Algeria, he soon distinguished himself for skill and intrepidity in the war against the Arabs and was rewarded by his commanding officer with the Cross of the Legion of Honor. In the Crimean war he bore an important part. Indeed the storming of the Malakoff, the key of the defenses of Sebastopol, at which he commanded in person, first brought him into general notice. The reckless daring of the man is illustrated by an incident which occurred after the French infantry had effected a lodgment in the Malakoff. Marshal Pelissier, the commander-in-chief of the French forces, believing the fort to have been mined by the Russians, ordered M'Mahon to retire. "I will hold my ground, dead or alive," replied the latter. He did hold his ground, and the banners of the allied armies soon streamed from the ramparts of the wonderful fortress. After the close of the Crimean war he was again sent to Algeria, and in 1859 was recalled to participate in the war against Austria. He saved the French army at Magenta. Early on the day of that bloody and eventful battle, M'Mahon with the force under his command had crossed the river to execute a flank movement. The Austrians suddenly attacked the main body of the French army and for a time the latter was in imminent peril of defeat. But M'Mahon heard the cannonade, and reversing the order of march attacked the Austrians in front. His promptness snatched the victory from the Austrians, who were utterly routed, leaving 7,000 prisoners and 20,000 in killed and wounded. For this signal service the Emperor Napoleon created him Duke of Magenta.

Such, briefly sketched, is the history of the two eminent soldiers who now lead to battle the armed hosts of Prussia and France.—*Patriot.*

A NEGRO STATESMAN.—Wm. H. Andrews, a mulatto member of the Virginia Legislature, has been put in the lock-up and the jail of Richmond time and again for drunkenness, breaches of the peace, &c. He has been tried by the House for conduct unbecoming a member, once publicly reprimanded by the Speaker, and frequently threatened with expulsion. He has finally been committed to jail on a charge of perjury, having made oath that a negro companion stole his pocket book while they were drunk together. He is to be tried both in the courts and before the House, and the probabilities are that he will be expelled from his seat, convicted of the crime charged against him and immured in the penitentiary. Whittemore and Andrews are samples of the kind of statesmen who are given to the country by the reconstruction acts of Congress. Let the tree be judged by its fruits.

WE notice in the Holston *Journal*, a leading paper published in Ex-President Johnson's Congressional District, that he is being urged to accept the nomination for Congress. As a nomination is equivalent to an election, we hope he will consent to run. We need just such a man in that body. His long experience in public life, his incorruptible honesty, his devotion to the interests of the masses, his readiness in debate, his inveterate hostility to corruption and extravagance, his hatred of the Radicals, and his ability to deal hard blows, all fit him for the position. Let him be nominated and elected.

AN Anti-Chinese Convention has been held in San Francisco, and the President instructed to notify the authorities of China that it is unsafe for any more pig-tailed rat-eaters to visit this country. The dwellers on the Pacific coast are intensely excited on this question.

PRUSSIAN STRONGHOLDS ON THE RHINE.

The cable telegrams speak of the Prussian forces having occupied Saarbruck, in Rhenish Prussia, and Homberg, in Rhenish Bavaria, two towns directly on the frontier; and also of a report that the French troops had commenced the bombardment of the town of Saarlouis.

SAARBRUCK

is situated forty miles S. S. E. of Treves, and three miles from the French border, on the river Saar, a stream rising in the Vosges Mountains and joining the Moselle near Treves. The Saar is crossed by a stone bridge at the town, by which it is connected with its suburb St. Johann. The population is about 9,000. The town was founded in the tenth century, was given by the Emperor Henry III to the Church of Metz, and subsequently governed by its own counts until 1830, when it came by marriage into the family of Nassau. It was afterwards fortified and suffered much during the wars which have been waged in its neighborhood. In 1676 it was almost entirely destroyed by fire, and its fortifications dismantled, so that at the present time it is of no strategic importance.

SAARLOUIS,

however, which is also situated on the River Saar, but 30 miles S. S. E. of Treves, and five miles from the frontier, although it has a population of only about 1,500, is of greater importance. The town was founded by Louis XIV, and was strongly fortified by Vauban. It belonged to France until 1815, when it passed under Prussian control, and has since formed an important border stronghold of that power. In fact, it is the only well advanced Prussian fortress for the defense of the Rhine immediately on the frontier. Saarlouis, as well as Saarbruck, is connected by excellent roads with Metz, Treves, Mayence, Manheim and Landau. These roads afford an excellent opportunity for the rapid movements of troops, but the fortifications are inadequate for the requirements of an advanced post to hold the enemy in check, while the army is being brought forward, or to serve as the base of operations against Metz, Thionville, Verdun and Paris. Last year it was proposed to build several single forts in the most important passes of this district, but it is impossible to say how far these proposed defenses have progressed.

NEUBURG,

in Rhenish Bavaria, is a small village on the Rhine, some fifteen miles southeast of Landau, and less than ten miles from the French fortified city of Lauterburg. It is also within easy distance of Carlsruhe. Here a Prussian force is also reported to be stationed, but the place has no strategical importance whatever.

RASTADT,

where the soldiers of Baden are concentrating, is one of the strongholds of South Germany, although the town itself is quite insignificant, the population hardly exceeding 6,000. Its fortifications are of immense strength. Rastadt is situated in Baden, on the right bank of the Rhine, fourteen miles south-southwest of Carlsruhe, and is on the Basle and Manheim railroad. It is about ten miles southeast of Lauterburg and thirty miles northeast of Strasburg, but has no direct road uniting it with either place. The present fortifications of Rastadt were commenced in 1841. In 1849 the garrison mutinied, and the town had the honor of being the last place held by the German republican revolutionists. Under the leadership of Mieroslawski, it held out for a time against the forces commanded by the Prince of Prussia, but finally surrendered. Since then its fortifications have been vigorously pushed forward and are now exceedingly strong.

LINDEN,

where another Prussian force is reported, is in Hesse-Darmstadt, on the railroad running from Frankfort northward through Giessen, between which places it is situated. The village is at least forty miles from the nearest point on the right bank of the Rhine.

HORRIBLE OUTRAGE NEAR LAUREL, DEL.—A correspondent in Laurel, Delaware, sends the following to the Salisbury (Md.) Eastern Shoreman:

"On Tuesday last a negro man named Ben. Johnson, said to be a fugitive from your town, but temporarily sojourning between this place and Sharptown, followed a respectable married woman of the neighborhood and little daughter into the swamp, where she had gone for the purpose of picking whortleberries, frightened the child away, and then perpetrated the most heinous possible act upon the mother. The husband of the injured woman and about a dozen of his neighbors surrounded the villain's house through the night, and on Wednesday morning found him under the building, nearly buried in the soil. The infuriated husband endeavored to take summary vengeance, but was restrained by some more considerate persons. The fiend was brought to town—the evidence of of the outraged wife having been taken at the house—and committed to jail by Justice Tyre to await his trial at the October term of court. While here he acknowledged several similar offenses, which we know to have been perpetrated and attempted in the neighborhood without being able to detect the author, one upon the person of a young white woman, about four miles from town, last spring. It is some consolation to hope that the foul deed of Tuesday is the villain's last."

"How," said Mr. Munsell to Mr. Yates, "do you accomplish so much in so short a time? have you any particular plan?" "I have. When I have anything particular to do, I go and do it."

NOTICE.—To any one who can say, "Shoes and socks Susan," with rapidity and faultless pronunciation, four times running, a large reward will be paid.

A MISSOURI newspaper claims that the hogs of that State are so fat that in order to find out where their heads are it is necessary to make them squeal, and then judge by the sound.

A LAD crawled into a sugar hogshead, and his first exclamation was, "Oh, for a thousand tongues!"

THE FRENCH AND PRUSSIAN NAVIES.

THE FRENCH NAVY.

At the commencement of the present year France had a fleet of 62 iron-clads, 264 unarmored screw steamers, 62 paddle steamers and 113 sailing vessels. The following shows the strength of this formidable navy:

Class.	No.	Horse Power.	Guns.
Ironclads	62	28,658	762
Screw steamers	264	[illegible]	[illegible]
Paddle steamers	62	[illegible]	[illegible]
Sailing vessels	113		[illegible]
Total	501	92,02[illegible]	[illegible]

The French navy is commanded by 2,215 officers of different grades. The sailors, afloat and on shore, numbered 39,316 in 1869, which, together with engineers, dock-yard laborers, navy surgeons and others connected with the force, bring the grand total of men engaged in the service of the Imperial fleet up to 71,403. On the war footing the strength of the navy can be raised to 170,000 men, this being the number entered on the lists of the maritime conscription. Exclusive of the above are the marines and the colonial troops, amounting to 28,623 men.

THE PRUSSIAN NAVY.

Since the organization of the North German Confederation, in 1866, the most strenuous exertions have been made to place the navy on a substantial basis, and great progress has been made. At the commencement of the Regency of King William I, in 1858, the Prussian navy consisted of 1 decked corvette, with 28 guns; 1 level decked corvette, with 12 guns; 1 yacht, 1 garrison ship, 2 old sailing frigates, 1 sailing corvette, 2 schooners, 1 transport ship, and 38 gunboats, etc., propelled by oars. On the docks lay the Gazelle, a vessel of 28 guns. The North German fleet now consists of the following:

Class.	No.	H. Pow.	Guns.
Ironclad screw steamers	7	[illegible]	[illegible]
Frigates and corvettes	9	[illegible]	[illegible]
Gunboats	[illegible]	[illegible]	[illegible]
Sailing vessels	[illegible]		[illegible]
Total	102	10,770	[illegible]

The Prussian and North German navy is manned by about 4,500 seamen and boys, and officered by one admiral, one vice admiral, one rear admiral, 27 captains, 11 commanders and 158 lieutenants. There are besides five companies of marines, four of infantry and three of artillery, numbering 1260 men.

The comparison between the two fleets shows the following:

	France.	North German.
Vessels	501	102
Horse power	92,02[illegible]	10,770
Guns	[illegible]	[illegible]

This comparison shows that King William's fleet is by no means able to cope with that of his antagonist, and will be placed throughout the war entirely on the defensive.

NO PRIVATEERING.—There will be no privateering in the war between France and Prussia. It is forbidden by the "Paris Declaration" of 1856, which was signed by the Plenipotentiaries of England, France, Prussia, Austria, Russia, Sardina, and Turkey. The exact language of the four points then agreed upon is as follows:

1. Privateering is, and remains, abolished.
2. The neutral flag covers enemy's goods, with the exception of contraband of war.
3. Neutral goods, with the exception of contraband of war, are not liable to capture under enemy's flag.
4. Blockades, in order to be binding, must be effective; that is to say, maintained by such a force sufficient really to prevent access to the coast of the enemy.

The American Government, it will be remembered, declined to become a party to the above declaration.

ABSCONDING WITNESSES.—Delinquent and absconding witnesses hereafter will have to be a little more careful in responding to the processes of the courts, in important criminal trials. A recent act of the Legislature provides that if any one who shall have been required by virtue of any writ of subpoena, or other legal process, to appear and testify in any criminal prosecution, fail to do so, he shall be guilty of a misdemeanor, and being thereof convicted, shall be sentenced to pay a fine not exceeding two thousand dollars, or undergo an imprisonment not exceeding two years, or both, at the discretion of the court.

DEMOCRATIC COUNTY CONVENTION.

At a meeting of the Democratic Committee of Adams county, held at the Globe Inn, in Gettysburg, on Saturday, the 16th day of July inst., the following resolution was unanimously adopted:

Resolved, That the Democratic voters of Adams county be and they are hereby requested to meet at their respective places of holding Delegate Elections, on SATURDAY, the 6th day of AUGUST next, for the purpose of choosing Delegates to represent them in a County Convention to be held in Gettysburg, on MONDAY following, AUGUST 8th, at 10 o'clock, A. M., to nominate a County Ticket, appoint Congressional Conferees, and transact such other business as may be deemed necessary. The Delegate Elections to open at 3 and close at 6 o'clock, P. M., in all the districts except the Boroughs of Gettysburg and Littlestown, and in the latter two to open at 7 and close at 9 o'clock, P. M.

WM. McCLEAN, Chairman.
JOHN H. [illegible], Sec'y.
July [illegible], 1870.—td

MR. FRELINGHUYSEN accepts the mission to England.

A DISPATCH from Washington says that our Navy is to be strengthened in view of the war between France and Prussia.

THE Philadelphia *Press* complains that its party in Delaware is not active. How could it be, with the negro astride of its back and the Congressional millstone around its neck?

DR. JOHN R. READING, who was elected to Congress from the Bucks county District and thrown out by a Radical majority, is a candidate for renomination and will be successful not only in that, but will be triumphantly elected.

FULL returns from the Oregon election make the majority for the Democratic candidate for Governor, Mr. Grover, [illegible]. Seymour and Blair carried the State by only [illegible]. The Democratic gain therefore is [illegible]. Governor Grover is the first Democratic executive elected by the people of Oregon for ten years.

CONGRESS before it adjourned appropriated $[illegible] to support aged negro women in and around Washington City, and $[illegible] to extend a negro asylum there known as Winder's building. How many white women are there in the country who would gladly receive a little help of this kind. But they are white and therefore not entitled to any assistance.

NOT only the Democratic journals but some of the prominent Radical newspapers, take exception to the appointment of Gen. Sheridan as commissioner to observe and report on military affairs in Europe. [illegible] of the Radicals of Philadelphia, the *Post* says that Sheridan's appointment is weak and improper, especially as compared with the commission sent to the Crimea—Delafield, Mordecai and McClellan.

GEORGE W. LOWRY, Esq., a prominent Republican of the Tenth Ohio District, cuts loose from that party and joins the Democracy, for, among others, the reasons that the Republican party proposes to destroy the sovereignty of the States, and is monarchic; that it has forced upon white men political and social equality with negroes; that it protects monopolies, and exacts burdensome and unequal taxation. Thousands more will come [illegible].

THE Columbia *Herald* calls on the Executors of Thaddeus Stevens to file an inventory of his effects. The law demands this, and they are sworn to obey the law. Besides, it has been charged that after Mr. Stevens's death one hundred thousand dollars of Lancaster Railroad bonds were found among his personal estate, received for services rendered the stockholders. All these considerations the *Herald* thinks should bring the Executors, as honest conscientious men, up to the full measure of their duty in the premises.

THERE are Republican editors who flatter themselves that the excitement consequent upon the war in Europe will overshadow the negro suffrage and equality question, and that they will thus escape the responsibility their party has incurred in forcing these evils upon the country. But they will be disappointed. Events may turn as they will across the water, the course of the Radical party has been too iniquitous to be forgotten or forgiven.

Democrats! here and everywhere hold the Radicals to their record! They have by chicanery and fraud, forced the negro on the level with the white man! Compel them to "face the music" and take the consequences!

IT seems to be generally accepted that our government will observe the strictest neutrality in regard to the war about to open in Europe. And rightly so, because as a nation we have an interest in it only so far as it may affect our commerce and the rights of our citizens on the ocean or in foreign lands. If in the course of hostilities either belligerent should commit trespasses which the honor of our government would be bound to resent, it would be very awkward for us to have given our previous sympathies to the side from which we had received the wrong. Our government should keep itself in a position to demand prompt redress and enforce prompt reparation from either party, if either party should fail to respect our rights. All our merchant vessels are subject to detention and search for contraband of war, and to capture for all real violations of blockade; and in the exercise of this belligerent right, France or Prussia may become trespassers by the zeal or impudence of its officers, or the arrogance of its government. If American vessels should be captured and unjustly condemned by either belligerent, our government would be bound to resent the injury; and as nobody can see from which side such injuries may come, it is the plain duty of our government to keep itself clear of all entanglements with either, and preserve the most complete freedom of action in whatever emergencies may arise.

A BARGAIN BETWEEN PRIM AND BISMARK.

The New York *Sun* has an editorial in relation to an alleged bargain between the Spanish Minister Prim and Count Bismark, which makes statements of a startling character. It is declared that an agreement was concluded between the two to the effect that Prince Leopold, of Hohenzollern, should be placed upon the Spanish throne and the independence of Cuba thereupon recognized, with the proviso that the people of that island should solicit the protection of Prussia and be placed under her guardianship. Prussia was to have the use of the port of Havana or the Gulf of Nipe as a naval station, the Cubans were to pay one hundred millions of dollars to Spain, and Prussia to guarantee the payment. It is stated that Lord Clarendon, of England, gave his assent to this arrangement and did all he could to favor it during the latter part of his life. The *Sun* alleges that part of the hundred millions stipulated for has already been paid over to Prim by a German Banking House of London upon Bismark's responsibility. The whole statement is of so strange a character that we are disposed to wait for further evidence before according it entire credibility. The *Sun* concludes its article as follows:

The intrigue between Bismark and Prim which we have now revealed, is one that would never have been undertaken had the United States possessed an Executive worthy of the name. But with an incompetent political fossil at the head of the State Department, whose son-in-law and corrupt Assistant Secretary regularly sells him to a gang of mercenary adventurers aiming to enrich themselves by the transfer of Cuba, it would indeed be surprising if such a man as Count Bismark regarded the United States Government with any feeling but contempt.

THE war which is about to desolate two of the most fertile and productive countries of Continental Europe has a tragic side which interests the American public only as spectators, and a commercial side which interests us as business men and politicians. We must not blend and confuse the two, but keep them quite distinct. It is the first duty of American statesmen and publicists in this conjuncture to keep a steady eye on American interests, and to prevent, if possible, any sentimental entanglements which would prevent our reaping the full advantages of that attitude of neutrality which it is the manifest duty of our government to preserve. So far as the combatants are concerned we shall watch them with an alert and interested curiosity, as we would a Spanish bull fight or a contest of Roman gladiators. The fact that they are our competitors gives our curiosity a keener edge, but we have no more real interest in this war than in the historical campaigns of Frederick or Wellington. At bottom it is merely a question whether Prussia shall retain, or France acquire, the Rhenish provinces—a difference not worth to America the loss of one of our nickel cents.

But as traders, economists, and politicians, looking to our own interests, this war demands and deserves our vigilant attention. It is of importance to us chiefly as it may affect these three great interests: *First*, as it may bear on the proposed American reforms in the international code of maritime warfare, a code which is in a most unsatisfactory state and lags behind our present civilization; *secondly*, as it may afford opportunities for resuscitating our navigation; and *thirdly*, as it may affect the foreign market for our productions. To the belligerents themselves and the rest of Europe the points of chief interest are different; but Americans have too much discrimination to confuse our separate interests, which are very distinct, with those of nations who wish to destroy, or have a stake in preserving, the balance of power in Europe. The United States are too important to regard themselves as a satellite of the European system. We move in our own independent orbit, and although we may suffer some perturbations from conjunctions or oppositions in the other hemisphere, we shall follow the attraction of our primary interests.

As respects changes in the international code and the resuscitation of our shipping, the prospect is slender indeed of our gaining any advantage by this war. Our diplomacy is too imbecile for the first, and the refusal of Congress to permit registers to foreign built ships deprives us of the profits which we might reap as neutrals. But the war will increase the foreign demand for our agricultural products, and in this respect may prove a benefit.—*World*.

ENGLAND AND THE WAR IN EUROPE.—*Russia and the United States the Powers of the Future.*—In urging that every effort should be made for the maintenance of peace, we are moved more by moral considerations than by those of traditional European policy. It must be said that a care for the balance of power, which, within the last two or three years, has significantly disappeared from the preamble to the mutiny act. A war between France and Prussia would be a war for the left bank of the Rhine, and would no doubt be fought out until the capacity of the one to conquer or of the other to defend that debatable land was fully decided. The military result of such a war would affect us but little. The time has passed when it could matter to England whether any Western power possessed a few square miles more or less, or the command of this or that fortress. Since the last settlement of Europe, States have come to maturity in the world which threaten to dwarf the ordinary members of the European system. *Russia and the United States are the powers which the next generation will look upon as the most formidable.* Moreover the interests and attentions of England are chiefly concerned with her own growing colonies and with the vast populations of Asia. The result of a Franco-Prussian war is of little moment to us politically, but we have an interest in common with the whole of Europe, that the two most advanced nations of the Continent should not plunge into a contest, the effect of which may be to divide them for a generation by an enduring hatred. How much the real strength of civilization may lose by such a convulsion it is impossible to foretell. We can only be certain that the importance of Western Europe, the principal field of human progress, will be diminished, perhaps permanently, by a fratricidal strife.—*London Times*.

GEN. LEE will be elected President of the Virginia Valley Railroad, but it is not to prevent him from continuing as President of Washington College.

THE FRENCH AND PRUSSIAN WAR.

Skirmishing Commenced—No Pitched Battle Yet—Extraordinary Secret Treaty.

Not much news from the seat of war in Europe yet. Military and naval preparations are active on both sides and there has been some skirmishing, but only slight.

On Saturday last a Prussian force crossed the French frontier to make a reconnoissance in the direction of St. Avold and Metz. After proceeding some distance they encountered an outpost of the enemy, and had a brisk skirmish with a force of French chasseurs. The Prussians retired, leaving two men on the field.

A Prussian success is reported near [illegible], the French losing ten killed and wounded. A body of Prussian troops also seized a French Custom-house near Schrecklingen.

The headquarters of the German army are reported to be at Kreuznach and the French at Metz. The armies are thus about 100 miles apart, by direct line, and 116 by railroad.

In order to be ready for a movement in the Schleswig-Holstein provinces, a large French fleet has been ordered into the North Sea. To meet this movement Prussia has double armed all her ports, and put them in a most complete state of defense.

Much excitement has been caused throughout Europe by the discovery of a projected treaty between France and Prussia, in the first article of which Napoleon admits and recognizes the late acquisitions of Prussia from Austria. In the second the Prussian King engages to facilitate French acquisition of Luxemburg. In the third the Emperor acquiesces in the union of the North and South German States, Austria excepted. In the fourth, France finding it necessary to absorb Belgium, Prussia lends her assistance to that measure. The fifth article is, as usual, one of offensive and defensive alliance between two nations.

The matter was brought up in the British Parliament, and much indignation manifested. It is now thought by many that England will take a hand in the fight, but by others it is treated as not calling for any such extreme measure. England is asking explanations from both France and Prussia.

LATEST.—At last accounts the French troops were being concentrated with great rapidity, and a general battle was expected by Thursday.

The Empress Eugenie has been declared Regent of France during the Emperor's absence in the field.

THE negroes in Louisiana are relapsing into barbarism. The *Age* says: About the time of the negro sacrificial anniversary of Voudou in Louisiana a little white girl disappeared from the streets of New Orleans. Large rewards have been offered for her recovery, or such information as will give certain knowledge as to her fate. Experienced and trained detectives have been employed to unravel the mystery. Money has been freely used in the same direction, but all to no purpose. The child cannot be found. The persons most interested in this case, within a few days have unearthed a trail which leads to the horrid suspicion that the child was carried off to be sacrificed to Obi in the performance of the disgusting rites of that superstition. It is known that the Obi priests have declared that a certain number of white children must be offered to him on the blood stained altar each year, or the whole black race will be remanded to slavery. This has alarmed the superstitious negroes, and they are now ready to obey their dread deity, and sprinkle his foul and disgusting altar with the life blood of innocent children. The case reported from New Orleans is not the only one of the kind which is said to have occurred. Other children are missing in various parts of the South, and their end is supposed to be similar to that feared for their New Orleans sister. This is a terrible state of affairs. Barbarians, who immolate children to imaginary gods, have been elevated to the rank of American citizens. They are to make and interpret laws in relation to the moral well being of white men and women of this country. They are to sit upon the bench and in the jury box one day, and butcher a white child at the command of Obi the next. This case of the missing child in New Orleans has opened a momentous question for white men and they must meet it as men should in this Christian age and country.

RADICAL WAR IN NORTH CAROLINA.—Finding themselves unable to maintain control of the State of North Carolina by peaceable means the Radicals have resorted to the desperate expedient of arming bands of militia at the public expense, and conservative meetings are now being violently broken up, and prominent citizens seized, imprisoned and threatened with military trials and summary execution. Even after all the outrages which we have been compelled to chronicle, this news from North Carolina is calculated to startle the people. If a fellow like Holden, who could never obtain office when the people of North Carolina were free to vote their honest sentiments, is to be permitted to put himself at the head of a force of armed men and to arrest and try by drum head court martial all who are opposed to his re-election, then can this country furnish to the world an example of tyranny such as no other civilized nation ever exhibited. We ask Northern Republicans to look at this result of the Congressional system of reconstruction. Can they approve of such despicable rule?

NEGRO MASS MEETING.—A negro political mass meeting in Lancaster county, near Spring Grove Hotel, is announced for Friday, the 5th of August. The *Intelligencer*, in alluding to it, says:

It is expected that both the contending candidates for Congress will be present, all the aspirants for Legislative honors, and every Radical who is a candidate for any office. The negroes have taken time by the forelock, and it is intimated that certain leading men among them, having already learned the tricks of their white brethren, will hold out for the highest bid and vote and work at the Radical primary election for the candidates who come down most liberally with their greenbacks. We expect to see a nice specimen of political huckstering at this negro mass meeting.

THIS is the way the Radical tariff men of Massachusetts "protect American industry," to wit: The white workmen in the factories are dismissed and Chinese slaves imported to take their places. The manufacturers pocket the tariff bounties and kick American labor out of their shops.

THE "crack" New York Seventh Regiment visited Cape May week before last and had a grand reception in Philadelphia on the route. Last week the equally renowned Fifth Maryland also made an excursion to the Cape and Philadelphia accorded them a similar honor. Their parade through the city excited a perfect storm of enthusiasm, so soldierly was their bearing, so perfect their discipline, and so admirable their marching and handling of arms. They threw the "Seventh" completely in the shade.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

Communications intended for this paper must be accompanied by the names of the writers.

Fulton.—The Fulton County Democratic Convention on Saturday last, nominated J. M. Fields for Treasurer and A. Hess for Commissioner. Geo. A. Smith, Esq., of McConnellsburg, was recommended for Congress.

Tall Corn.—Mr. George Wampler, across the way, brought to our office, on Monday, a stalk of corn measuring 12 feet 6 inches. Who has a taller one?

Sudden Death.—The hot weather prevailing during the last two or three weeks has caused many sudden deaths. Among the latest reported is that of Mr. Emanuel Burns, the well-known hotel keeper at Manchester, Md.

Armory—Engines.—We understand the Town Council have leased to the Gettysburg Zouaves room in the Engine House for an Armory. The "Blue Dick" engine is to be retained and housed there, whilst the "Get Paylot" and "Capt. May" are to be disposed of for what they will bring.

Lutherville.—Rev. P. M. Bikle, formerly of the College and Seminary at this place, and lately a Professor in North Carolina College, has been chosen Vice Principal of the Lutherville Female Seminary—a position which we predict he will fill with decided credit to himself and the Institution.

Lightning.—A few days ago lightning struck a tree in front of Mr. Lewis Long's residence, in New Oxford. The family, sitting on the porch, were all more or less stunned, a small baby so much that life was despaired of, but it is slowly recovering, under the treatment of Dr. McClure.

Pic Nics.—A grand Pic Nic will be held at Kuhn's Fording, near East Berlin, on Saturday, August 6th. Refreshments on the ground. The public respectfully invited.

The Pic Nic near McKnightstown will come off to-morrow (Saturday).—Refreshments on the ground—and the public invited.

The "Ground Hog."—There will be trouble about the weather in the spring of the year hereafter—Messrs. Lewis Myers and Adam Bollinger having captured the "ground hog." Whilst going out the Emmittsburg road, on Tuesday, they stirred it out of a wood pile at Vance's, and the animal running into the house, they caught it alive.

Rain is the great want of this vicinity just now. The earth is parched, and all vegetation is suffering. The corn crop, so promising a few weeks ago, must prove a failure unless speedily helped by copious showers. The same may be said of the potato crop.

P. S.—This vicinity was blessed with a heavy shower on Wednesday evening. It extended, we hear, beyond Hanover.

Springs Railway.—The Passenger Railway to the Springs Hotel is in good running condition, and doing a paying business. There was some difficulty in getting along, on account of the wet weather and mud, at the beginning of the season, but everything is right now, and the cars make trips on time and with regularity—thanks to the never-give-up-ativeness of Superintendent Howell.

Barn Destroyed by Lightning.—We learn that the barn of Mr. George Bair, in Union township, this county, was, on Wednesday evening week, struck by lightning, and entirely destroyed, with the season's crops of grain and hay. Two horses in the barn were instantly killed by the stroke. The amount of loss, and whether insured or not, are points on which we are not advised.

Struck by Lightning.—During the thunderstorm on Wednesday evening, the new brick house at the end of Carlisle street, belonging to Mr. A. D. Buehler, was struck by lightning, the electric fluid entering at the top of one chimney, crossing along the comb of the roof and passing out at the other. The chimneys and the roof were somewhat injured, but the damage is not heavy.

Attempted Incendiarism.—In our last the burning of Mr. John Spangler's new barn in Mountjoy township was mentioned. We learn that an attempt to burn a hay stack on the same property has since been made, a lot of half consumed matches having been found near it. Mr. Spangler does not know that he has an enemy in the world, and that he should be thus pursued is altogether unaccountable to him.

Gettysburg, with its excellent Hotels in town, and the Springs Hotel not far from it—its pure air and beautiful scenery—its railroad and telegraph lines—with other good points innumerable—affords every inducement to city people and strangers generally for sojourn during the warm summer months. The battle-field is calculated to interest every one, but aside from this we contend that there are few places which can hold out more in the way of real comfort than this. A trial will prove our word good.

Handsome Monument.—Mr. Wm. N. Miller, marble worker, of this place, has just completed a handsome monument to be placed over the remains of the late Wm. M. Beetem, at Carlisle. It is nine feet high, and consists of a plain white marble base, a moulded base of Italian marble, a die block, with tablet and wreath of same material, and an urn surmounting the whole. The work, in its design and execution, is admirable and cannot but add to Mr. Miller's already high reputation. Its cost [illegible].

Improvements.—Mr. Bernard Reilly has erected a large two-story brick building in Fairfield, the first floor calculated for a saloon and the second for a mechanic shop.

Mr. Peter [illegible] has torn down his old dwelling house in the same place, with a view to the immediate erection of a new one.

Mr. Levi Wagner has just completed a double two-story brick house in New Oxford.

The Messrs. Hershey have completed a two-story brick building attached to their bakery and store, also a large frame barn, in the same place; Mr. Samuel F. Neely has built a two-story kitchen and barn; and Mr. A. S. Himes has his handsome brick cottage nearly ready for occupancy, with a brick barn under roof. Other buildings are in progress, whilst there is a general brushing up in that thriving town.

Sudden Death of Professor Stoever.—On Saturday last this community was startled by the intelligence that Prof. Stoever had died suddenly in Philadelphia the day previous. Our people could hardly realize the sad fact, so recently had he been among them, in the apparent enjoyment of usual good health. It seems, however, that his nervous system had been much prostrated by long continued labor, and his death is attributed to this cause, with congestion of the brain, the hot weather no doubt severely affecting him.

Professor Martin Luther Stoever, LL. D., spent thirty-one years of his life in Pennsylvania College at this place.—He graduated in it in 1838, in his nineteenth year, first in the class. At the time of his death he was Professor of the Latin Language and Literature in the College, but in his long service as Professor had filled nearly all the chairs. He was also editor of the *Evangelical Review*, and had published two memoirs, one of Dr. Henry Melchoir Muhlenberg, and the other of the Rev. Dr. Meyer.

Dr. Stoever was born at Germantown, on the 17th of February, 1820, and his remains were interred at the same place on Tuesday morning. Long among this people, and respected by them, his loss will be felt in many ways.

Preaching in the Square.—Revs. J. P. Bishop and J. G. Schall, of Chambersburg, who lately withdrew from the United Brethren, preached in the Public Square, in this place, on Friday evening last, holding quite an audience from about half past 7 until 10 o'clock. If rightly understood by our reporter, their position is, that a future state is only for the righteous—that the wicked at death are annihilated, in other words that there is no hell. They deny the spirituality of man, asserting that in his nature he and the brute creation are alike—but that those who accept Christ are lifted out of this to a life beyond the grave.

Springs Hotel.—The Gettysburg Springs Hotel is having a fine run.—Three or four weeks ago guests from various parts of the country commenced coming, and the stream has been kept up ever since, the impetus increasing with the rise of the thermometer. There is now a large company there, and we understand that every day parties are writing or telegraphing for rooms. The season thus far has been a success and the indications are that it will prove so to the end. Mr. Hoppes and his excellent lady know how to run a hotel, be it ever so large. Energetic and clever, they are "the right people in the right place."

The Heat.—With the exception of Wednesday evening, during the shower, the weather here has continued hot. The following record, from Solomon Powers's thermometer, will show the "degrees" attained:

	7 A.M.	12 M.	7 P.M.
Wednesday, 20th	[illegible]	[illegible]	[illegible]

INNINGS. Gettysburg [illegible] Total [illegible]. Independent [illegible].
Umpire—John M. Krauth.
Scorer—Wm. Kendlehart.

O. U. A. M.—The Order of Junior American Mechanics has been instituted in this place, there being about 20 charter members, between the ages of 16 and 20 years. The present officers are: Jr. Ex. C., Carl Miller; C., Wm. Aughinbaugh; V. C., Peter Warren; C., F. Flaharty; W., Wm. Stallsmith; R. S., John Shields; A. R. S., John Towney; F. S., Samuel Dotterer; T., J. W. Cress; I. S., Z. T. Flaharty; O. S., Carl Rupp.

Balloon Ascension.—John A. Light made a successful ascension in his balloon "Albion," at Chambersburg, on Saturday afternoon. He went up at 25 minutes past two—was up forty-two minutes—ten to twelve thousand feet at highest—and landed within two miles of Upper Strasburg. He had considerable difficulty in landing, tearing down two fences in the effort.

Life Insurance.—In the death of Prof. Stoever, of this place, we have another illustration of the advantages and importance of Life Insurance. We learn that about two years ago Prof. S. took out a policy for $5,000 in the "Penn Mutual Life Insurance Company" of Philadelphia, on which he had made but three payments, amounting in the aggregate to about $[illegible]. His family will now realize $5,000. The "Penn Mutual" is one of the oldest and best established companies in the country, with a heavy surplus capital, which pays all policies promptly. Mr. Henry J. Fahnestock is the agent for this county. tf

Attention Farmers.—Try the celebrated Patent Elastic Rubber lined Collars, Saddles and Pads. Warranted to prevent horses from galling and to heal up work horses already galled, if properly fitted, and sore necks and backs, if kept clean with cold water and Castile soap, or no pay. For sale by J. W. Cress, manufacturer's agent, Gettysburg, Pa. Sept 17.—tf

Always Ahead.—Capt. Norris is determined not to be outdone by rivals, and hence has been brushing up his "Head Quarters," on the corner of the Diamond and Chambersburg street, (Arnold's corner,) where he has on hand the largest and best assortment of Ready made Clothing of all kinds, for Spring and Summer use, ever opened in Gettysburg, and which he is offering at astonishingly low figures. His stock of Straw Hats embraces all styles, qualities and prices. April 29.—tf

Farmers, This Way.—Bigham & Co. are the agents for the Champion and the Buckeye Reapers and Mowers, the best machines now in use. Farmers wishing to get a good machine and one that will give entire satisfaction, should not fail to call on Bigham & Co., at their Warehouse, on North Washington street, Gettysburg, Pa. Come one, come all, and see the world renowned machines. tf

Communicated.

H. J. STAHLE, Esq., Editor of the *Compiler*.—Dear Sir:—I have recently been asked by many voters whether my name would be submitted to the approaching Democratic County Convention in connection with the nomination of a candidate for Congress. I trust not, and now thus publicly decline such nomination, if intended, in order that my name may not be in the way of any gentlemen whose names may be brought before that Convention for nomination as candidates for any of the other offices then to be selected.

Very respectfully,
WM. McSHERRY.
Germany twp., July 20, 1870.

Important R. R. Contract.—An important Railroad contract was concluded at the Girard House, Philadelphia, says the *Inquirer*, on the 2d inst., by A. K. McClure, counsel for the Central Improvement Company, with the Shenandoah Valley Railroad Company. The Improvement Company have contracted to construct the Shenandoah Valley Railroad, including superstructure, stations, and everything ready for the equipment from the Potomac river, at or near Shepherdstown, by the way of Charlestown, Front Royal, Luray, Fisherville, Lexington, and Buchanan to the Virginia and Tennessee railroad, near Salem, a distance of [illegible] miles, and to complete the same within two years.

The contracting party is made up of strong railroad men, and they will be able to prosecute this important enterprise with the utmost vigor. The Cumberland Valley Railroad will be promptly extended from Hagerstown to Shepherdstown, a distance of but thirteen miles, and thus connect the Shenandoah Valley Road with the Cumberland Valley and Pennsylvania Central. It is the purpose of the managers of the Shenandoah Valley to extend their road as speedily as possible through Clinch and Holston Valleys, through a country of boundless mineral resources, to Knoxville, and connect with the network of railroads radiating from that point, and also through Pound Gap to connect with the Kentucky system of railroads, thereby making almost an air-line from Memphis to Philadelphia and New York.

—Would not a route from Hagerstown eastward via Gettysburg and York be a better "air line" than the Cumberland Valley?

Fire.—During the storm which prevailed on Wednesday evening week, one of the chimneys of the hotel of Mr. George W. [illegible], in McKnightstown, caught fire and blazed out at the top at a fearful rate, scattering the burning soot in every direction. Mr. Charles Markley and several others ascended to the roof, and with a few buckets of water checked the blaze.

But about this time the house occupied by Robert McClean, Esq., was found to be on fire, a fragment of burning soot having been carried there, a distance of 100 yards. Messrs. Abraham Hake, Calvin T. Lower and John Eberly promptly sprang upon the roof, and kept their position until the fire was extinguished. To the gentlemen named and the citizens of the town generally too much praise cannot be awarded for their active efforts on the occasion.

Soiling.—The *Live Stock Journal* for July contains an able and exhaustive article on the important subject of soiling stock. It is from the pen of E. W. Stewart, Esq. Every man who keeps even a single cow or cultivates ten acres of land, should read it. The *Live Stock Journal* is a handsome monthly devoted to "the farm, the turf, the dairy, and the poultry yard." Among its regular contributors are Hon. Lewis F. Allen, E. W. Stewart, Miss Mary Morgan, (the lady stock reporter of the New York *Times*,) L. B. Arnold, Cyrus O. Poole, and other leading writers on live stock matters. Published at Buffalo, N. Y., by H. A. Springer & Co., $1.50 per year.

Insurance.—We desire to call attention to the advertisement of the Hahnemann Life Insurance Company, of Cleveland, Ohio, found in another column. In consequence of an affection of the throat, which incapacitates him at present from preaching or teaching, Rev. C. J. Ehrehart has accepted a Special Agency for this Company. He has satisfied himself that it is a first class company—ably and economically managed by a responsible Board of Directors—and is in every respect worthy of the confidence of those who desire the benefits of Life Insurance. tf

Singular.—In Carlisle, the other day, a flock of pigeons were set upon by a swarm of bees, and many of them stung to death. It seems the bees were about swarming, and the pigeons, in flying, had passed through the excited honey-makers, which enraged them, and they attacked the feathered enemy with the result stated.

Township Ticket.—We are requested to state that the Democrats of Straban will settle their Township Ticket on the day of the Delegate Election, Aug. 6th, at 5 o'clock, P. M.

To the Trade.—Wm. Blair & Son offer a large assortment of the best fruit jars at prices that defy competition. Also prime mess Shad, Mackerel, Dry Salt Potomac Herring, Salt, Sugars, Syrups, Coffees, Wares, Coal Oil, and everything else in our line that Store-keepers may want, in quantities and at prices that will not fail to please. Please give us a call.

WM. BLAIR & SON,
Wholesale and Retail Grocers and Queensware Merchants,
July 15.—3t South End, Carlisle.

Low Prices Back Again.—Great Bargains will be sold from now until April, to make room for Spring goods. Samuel Wolf will sell Hats, Caps, Boots and Shoes at greatly reduced prices—lower than any other establishment in this town. Overcoats worth $25 for $16, Overcoats worth $16 for $12, Overcoats worth $12 for $8, Overcoats worth $8 for $6, Dress Coats worth $18 for $13, Dress Coats worth $15 for $11, Dress Coats worth $12 for $8, Dress Coats worth $10 for $6.50, Dress Coats worth $8 for $6, and good everyday Coats for $2, $3.50, $4.50 and $5. Vests at astonishingly low prices. Pants at $1, $2 and $3. Clocks, Watches and Jewelry lower than the lowest.

As Sam is determined not to be undersold do not fail to call at Samson's old corner—northeast corner of the Diamond. tf

Lumber.—The attention of Carpenters and Builders is invited to the extensive assortment at the Lumber Yard of Col. C. H. Buehler, on Carlisle st., opposite the Passenger Depot. Tavern and Mountain Plank, Hemlock, Laths, Siding, Joists, Scantling, Shingles, Pickets, Flooring, Posts, &c. &c., furnished in any quantity and at lowest rates. tf

York Items.—The *Gazette* says that the census of the borough of York, nearly completed, will show a population of 15,000, independent of the suburbs. In 1860 it was [illegible]—Increase over [illegible].

Dr. Dale will make his second balloon ascension from Centre Square, in that place, to-morrow (Saturday) afternoon.

Charles Grund, a German, residing in York, was almost instantly killed on the Railroad, at or near New Freedom, on Wednesday week. In attempting to get on a lime car, while the train was in motion, he missed his footing, and was thrown beneath the wheels, which passing over him, severed both legs from the body. He died before the train reached York, and leaves a wife and two children.

The barn of Andrew Shaub, in Chanceford township, was destroyed by lightning on the 21st instant; also the barn of Solomon Dinner, Sr., in Heidelberg township, on the 22d. Loss heavy in both cases, partially insured.

The barn of Daniel Hoffheins, in Paradise township, was struck by lightning on the 22d, and a horse instantly killed. No other damage. The barn of Solomon Meckly, in Codorus township, was struck on the 15th, and considerably shattered.

The house of David Kraut, in Seven Valley, was struck by lightning on the 15th, and two of his daughters so severely shocked as not to have recovered at last accounts. Other members of the family were more or less affected.

The United Brethren in Christ will hold a Camp Meeting near Walker's Switch, on the Northern Central Railroad, commencing on the 12th of August.

The York Steel Works were put in operation on Thursday last. The steel manufactured is said to be of fine quality.

Lysander [illegible], of York county, has received the contract for an iron bridge across Double Pipe Creek, Md., at $[illegible].

William Elliott, Wm. Stough and George King recently caught seventy-two trout in four or five hours fishing, in a stream in the southern section of York county.

Appointment.—Mr. John Sullivan has been appointed to take the census of Highland and Hamiltonban townships, in place of Mr. Lott, declined.

Destructive Fire.—Newhall's sugar refinery, in Race street, Philadelphia, was destroyed by fire on Tuesday night. Loss $800,000—insurance $500,000. It was feared several firemen had lost their lives by the falling of a four story wall.

Spring and Summer Goods just received. Read Cobean & Cunningham's advertisement and learn where to buy Clothing, Hats, Caps, Boots, Shoes, Notions, &c., at reduced prices. Baltimore street, opposite Fahnestock Brothers. April 29.—tf

The Warm Weather being upon us, those wishing to refresh themselves will do well by calling upon J. H. [illegible], on Chambersburg street, and try the celebrated Cream Soda, which cannot be surpassed as a refreshing and healthy beverage. He also has constantly on hand the best Ice Cream, in small or large quantities to suit all. Pic Nics and Celebrations furnished at reduced prices. Give us a call and see for yourselves. July 8. 3t

Dr. Wistar's Balsam of Wild Cherry is "a combination and a form indeed" for healing and curing diseases of the throat, lungs and chest. It cures a cough by loosening and cleansing the lungs, and allaying irritation, thus *removing the cause*, instead of drying up the cough and leaving the disease behind. It

SUNSTROKE.—The mortality from sunstrokes during the last ten or twelve days has been almost without a parallel. There have been as many as thirty-five deaths in a single day in the city of New York from this cause alone, which partially indicates the trying heat through which we have been passing. It must be remembered too that the total number of recorded deaths, traceable directly to the heat, represents only a fraction of the injury to health and life which the weather has occasioned. The ratio of sunstrokes to sickness of a less decided type, but resulting from the heat, does not perhaps exceed one to a hundred; while the unfavorable effect produced upon persons already ill is incalculable.—Startling as is the exceptional record of mortality then, it affords no criterion of the suffering endured or the injury which has really been inflicted.—The effect of excessive heat upon the nervous system is always unfavorable.—*Sun*.

THE GETTYSBURG COMPILER, FRIDAY MORNING, JULY 29, 1870.

The Gettysburg Compiler.

GRANT has nominated as Associate Justice of the District Court at Washington a department clerk who was never admitted to the bar. The lawyers of the district are strongly protesting against the confirmation. To a judge of the court who called on Grant about the matter, he said that his nominee was competent for a judge, as he had read law two years! No wonder the party is getting tired of such a President.

THE French government has appointed Vicomte de Treilhard to be Envoy Extraordinary and Minister Plenipotentiary to the United States, in place of the late M. Prevost-Paradol. The new Minister was Secretary of Legation at Washington in 1865, and since French Minister Resident in Chili.

MORTALITY IN NEW YORK.—The extreme heat of the weather has largely increased the number of deaths in all the large cities. No less than ten hundred and forty-eight persons died in New York city last week. This is an increase of three hundred and forty-seven over the previous week.

DRY WEATHER is not confined to this locality. It extends over this State and Maryland, as well as over large portions of the West. Water is scarce and the streams are low—the Mississippi lower than in many years.

VALUABLE FARM

AT PRIVATE SALE.

THE undersigned, Executrix of the will of James Townsend, deceased, in accordance with said will, now offers at Private Sale, the valuable Farm on which she now resides, belonging to the heirs of James Townsend, situated in Reading township, Adams county, Pa., about 1½ miles north of Hampton, 4 miles from York Sulphur Springs and ½ mile from the Baltimore and Carlisle pike, containing 201 ACRES, more or less. This is commonly known as the "Old Round Hill Farm." It is mostly of the granite soil, has been heavily limed and manured, and is in a high state of cultivation. There are about 160 Acres of good farming land, and 40 Acres of good timber. The farm is well watered with springs and running water; a never-failing spring of excellent water about 25 yards from the door; also, another very large and strong spring about ¼ mile from the house, from which the water runs to the house continually, forced by a hydraulic Ram, which has been in successful operation for over twenty years. There is a barrel of excellent water standing in the kitchen all the time, suitable for cooking and washing. From the house the water is carried by lead pipe to a trough in the barn yard, thus furnishing plenty of water all the time for all the stock. The buildings are a large two-story STONE DWELLING HOUSE, a good-sized Stone Barn, a large frame Stable with stabling for 6 horses; Hay Mows, Straw Shed, &c., Wagon Shed, Grain House, Shop, Smoke House, Spring House, Hog House, and other necessary buildings—all under pine shingle roof.—There is a No. 1 Apple Orchard in good bearing order; also, Peaches, Pears, Plums, Cherries, &c., in abundance. This desirable farm is very conveniently located in regard to Churches, School Houses, Stores, Grist Mills, Saw Mills, Blacksmith Shops, &c. There is no widow's dower to be left in the property; but a part of the purchase money may stand if desired. An excellent quality of IRON ORE (magnetic) has been found on the farm, and the quantity is presumed to be large.

All persons desirous of purchasing such a farm are respectfully invited to call and examine for themselves. They will find it as represented. Terms easy and reasonable.

☞ Any person desiring any further information, (if it is not convenient for them to call) may obtain it by letter, by addressing

Important to Farmers!

THE undersigned informs the public in general that he has opened a NEW MACHINE SHOP in EAST BERLIN, Adams county, Pa., where he is building the celebrated

CHAMPION HORSE RAKE,

Patented May 11, 1869, by Albert Tschop and Jacob Hartman, which took the FIRST PREMIUMS at both the Adams and York County Fairs over many other Rakes.

This Rake was completely tried last season, and gave universal satisfaction.

It is the most simple Rake in its construction that has ever been made.

It cannot get out of order.

It is a self-discharger.

A boy of ten years can rake with it.

It is also a perfect hand-discharger.

It can easily be taken apart and put in the dry.

It is put up of good and sound material and warranted to give satisfaction.

Call and examine my Rakes before purchasing any other, as I am determined to sell as low as the lowest.

Special attention given to building

THRESHING MACHINES AND HORSE POWERS,

of the very latest patterns. Farmers wanting Threshing Machines would do well to give me a call and examine my machines, as I have been in the business for the last 16 years, and feel confident of being able to put up first-class work.

I am also building two kinds of GRAIN DRILLS, one of them Keeler's Patent, of Lancaster, Pa.

All kinds of REPAIRING done on short notice and at reasonable rates.

Remember the name and place.

RENOVATE YOUR FEATHERS

AND REMOVE A CAUSE OF DISEASE.

THE subscriber offers to the citizens of Gettysburg and vicinity, a rare chance to avail themselves of the unparalleled benefits of the unrivaled

Feather Dressing and Renovating Machine,

the most successful patent of the kind ever offered to the public.

And we venture the prediction that it never will be excelled, for it proves to be exactly what all conditions and qualities of Feathers, from entirely new to old and much worn, need to render them as perfect as age, quality and condition will admit of their being made. THE CLEANSING IS DONE ENTIRELY BY STEAM.

No fire coming near the Feathers, consequently no possibility of burning, scorching, or otherwise injuring them. By this process all moths are destroyed and removed, the Feathers cleansed, the fibres relieved from their matted position, giving a bed an astonishing increase in bulk, often more than one-half; also removing all disagreeable scent which is so common to new as well as old Feathers. In fact giving the appearance and essential qualities of NEW FEATHERS, and relieving them from all liability to moths by the removal of all gummy or glutinous matter from the quill. Our facilities are such, that by short notice, we can take and return beds the same day, well dressed and ready for immediate use. Now give us your best or poorest, old or new, provided they are geese or duck Feathers. We warrant satisfaction or make no charge. All persons are respectfully invited to call and see the machine and its operation, and judge for themselves.

The ladies are especially invited to call. Feathers called for and returned in town without extra charge.

EXAMINATIONS OF TEACHERS.

DESIRING to hold my examinations in the Boroughs, where the people are not so busily engaged this time of the year, and in some of those Districts which have the longest school terms, as soon as practicable, I hereby make the following appointments for the examination of Teachers, viz:

Littlestown borough, Wednesday, July 20th, 10 A. M.

York Springs bor. and Huntington township, at York Springs, Thursday, July 21st, 10 A. M.

Oxford twp., at New Oxford, Saturday, July 23d, 9 A. M.

Menallen twp., at Bendersville, Monday, July 25th, 10 A. M.

Butler twp., at Middletown, Wednesday, July 27th, 9 A. M.

Straban twp., at Hunterstown, Friday, July 29th, 9 A. M.

Hamilton twp., at East Berlin, Saturday, August 6th, 10 A. M.

Freedom twp., at Moritz's S. H., Saturday, August 13th, 9 A. M.

Notice of other examinations will be given in due time. I have several reasons for holding the examinations so early:

1st. To give the best Teachers sufficient time to make their engagements where they will receive the best compensation.

2d. To give those districts that pay the best an opportunity of securing the best Teachers.

3d. To give applicants who fail, an opportunity to prepare for a subsequent examination.

Examinations will be rigid and thorough. There will be no private examinations, and no certificate will be renewed or endorsed.

Directors are requested and the public cordially invited to attend. I will deliver a short address at each examination, will give the members of the Board an opportunity to ask the class any questions they desire, and I will explain any points of the School Law upon which information is desired. No person will be admitted to a class after the examination has commenced. Applicants will be examined only in the District in which they intend to apply. Examinations will be partly oral and partly written. Each applicant will please supply himself with writing paper and material, a Reader and Mental Arithmetic.

It is hoped many districts will imitate the noble example of Liberty, by increasing their terms to six months. Directors are respectfully urged to give no promises of employment until they know that the applicant holds a valid certificate. Carelessness in this matter will probably cost Hamiltonban, Union, and perhaps other Districts, their State appropriation for the present year.

J. HOWARD WERT,
County Superintendent of Schools.

Go to Klingel's

FOR YOUR BOOTS, SHOES & GAITERS!

D. H. KLINGEL, on Baltimore street, a few doors above the Court-house, Gettysburg, has just received a large stock of Boots, Shoes and Gaiters, which he is selling at greatly reduced prices. It embraces:

FOR LADIES—Congress Gaiters, Balmoral Gaiters, Kid Slippers, all styles, Morocco Balmorals, &c.

FOR GENTLEMEN—French Calf Boots, American Calf Boots, Kip Boots, Congress Gaiters, Calf Balmorals, Slippers, all styles, Brogans, &c.

FOR MISSES—Congress Gaiters, Balmoral Gaiters, Morocco Balmorals, &c.

FOR BOYS—Congress Gaiters, Calf Balmorals, Brogans, &c.

Infant Shoes of all kinds.

Also, Boots and Shoes of his own manufacture constantly on hand.

Buyers, from town and country, are invited to call and examine goods and prices before purchasing elsewhere, feeling confident that I can please all who may call.

THE MANUFACTURING

of Boots, Shoes and Gaiters will also be carried on, in all its branches, as before. Repairing done on short notice. By employing none but first-class workmen, and using none but the choicest leather, he feels confident of maintaining his former reputation. Certainly nothing will be left undone to deserve it.

Thankful for past favors, he solicits a continuance of public patronage.

THE GREAT

Medical Discovery!

DR. WALKER'S

CALIFORNIA VINEGAR BITTERS.

MORE THAN 500,000 PERSONS bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

They are a gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving congestion, or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal.

Send for a circular.

THEY ARE NOT A VILE FANCY DRINK, Made of POOR RUM, WHISKY, PROOF SPIRITS, AND REFUSE LIQUORS, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true medicine, made from the native Roots and Herbs of California, FREE FROM ALCOHOLIC STIMULANTS. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For INFLAMMATORY and CHRONIC RHEUMATISM, and GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the systems of so many thousands, are effectually destroyed and removed.

In Bilious, Remittent and Intermittent Fevers, these Bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

Nos. 31, 33, 35 & 37 Vesey St.,

NEW YORK.

HAVE APPOINTED

J. W. CRESS, Gettysburg, Penn'a, to sell their TEAS and COFFEES at the same prices that the Company sell them at their Warehouses in New York. A full supply of the freshest New Crop Teas will be kept for Sale at all times.

All goods warranted to give satisfaction or the money refunded.

Only one profit charged from the Producer to the Consumer. From five to eight profits saved by purchasing of this Company.

UNDER THE OLD SYSTEM

of doing business, the consumer of Teas had to pay about eight profits between the producer and himself, to cover as many intermediate sales.

UNDER THE NEW SYSTEM

the Great American Tea Co. distribute Teas to the consumers, through their Agents, all over the country, subjecting them to but one profit, and that but a very moderate one, as a small per centage on the immense sales, will amply satisfy the Company, for they sell thousands of chests of Tea, in the time it takes to sell one chest under the old system.

Farming and Housekeeping.

EARLY BREAKFAST.

A bad custom is prevalent in many families, especially among farmers, of working an hour or two before breakfast, hoeing in the garden, cutting wood, mowing, etc. This is convenient on many accounts, but it is not productive of health. The prevalent opinion is that the morning air is the purest and most healthful and bracing, but the contrary is the fact. At no hour of the day is the air more filled with dampness, fogs and miasmas than about sunrise. The heat of the sun gradually dissipates the miasmatic influences as the day advances. An early meal braces up the system against these external influences.—Every one knows the languor and faintness often experienced for the first hours in the morning, and this is increased by exercise and want of food. We do not agree with the boarding school regime which proscribes a long walk before breakfast as a means of promoting health.

Probably the best custom would be to furnish every member of the family, especially those who labor out of doors, with a single cup of warm coffee, well milked, immediately after rising from the bed. Then let them attend to mowing, hoeing, &c., for an hour or two, while the teams are feeding and the breakfast preparing.—They will feel better and do more work.—*American Agriculturist*

Wouldn't a glass of milk and a slice of buttered bread be better?

THE POTATO DIGGER.

The Pittsburg *Post* gives the following account of the working of a Potato Digger, which has been invented and manufactured in that city:

It cleaned out a row at a time thoroughly, lifting every potato and depositing on the surface with ease to the two horses and driver, and neither checked nor clogged. It also thoroughly pulverizes the soil and leaves it level. Another point is its permanent and substantial construction, and great simplicity. There is nothing about it to get out of repair, and it is as easily handled and propelled as an ordinary plow. The forward part resembles somewhat a flattish tooth shovel plow. The rear attachment is a series of iron slats, to lower or fall according to the depth of the furrow. These slats are made to vibrate vertically, somewhat like the shaking of a windmill. This is done by an agitator wheel, which rotates as the digger advances, and by ingenious, though simple attachment, keeps these slats agitated, thoroughly sifting the dirt from the potatoes. I do not design a mechanical description, as the best test of a theory is its practical results, and adopting this rule, no further notice is needed, as all who have seen it tried verify.

SUMMER PRUNING DWARF PEARS.—With most dwarf pear trees the present is the time for pinching or pruning as it may be termed. The shoots of this years growth are now from eight to twelve inches long, and now the labor of shaping a tree is less than half of that of winter pruning. With the thumb and finger pinch out the end of the shoot and one partially grown leaf; at the same time study to have the leaf or bud just below where you pinch, and what after pinching will be the last or terminal bud or shoot, on the side towards which you wish the next leading shoot or branch to grow. Our rule is almost uniformly to have this bud on the outside, and thus make our trees wide-spread and bushy, examples of which are in our grounds, open freely to the inspection of all who wish to learn our way. The short, slender, or inside spur shoots should not be touched; pinch only the leading strong shoots, or what are to be the leading branches.—*Journal of Agriculture.*

REMEDY FOR RUST IN WHEAT.—The following from a distinguished agriculturist, is taken from a Bremen paper: For thirty years I have found this method successful in preventing rust in wheat. Some hours, at the longest six or eight, before sowing, prepare a steep of three measures of powdered quick lime, and ten measures of cattle urine. Pour two quarts of this upon a peck of wheat, stir with a spade until every kernel is covered white with it. By using wheat so prepared rust of every kind will be avoided. I have often noticed while in the neighboring fields a great part of the crop is affected by rust; in mine, lying close by it, not a single ear so affected could be found. The same writer says he takes the sheaves and beats off the ripest kernels with a stick, and uses the grain thus obtained for seed.

HOW TO KILL LICE ON CATTLE.—A correspondent of the *Country Gentleman* "disolved about a pint of soft soap in a pail of warm, soft water, ter, and saturated the whole surface of a lousy cow's body with it; after about thirty minutes repeated the operation, and in thirty minutes longer took a pail of clean water and quickly and thoroughly washed out all the soap water and dead lice in large quantities, put her in a warm stable and covered her with a dry blanket. The next day, after being thoroughly dried she looked and seemed to feel like a new animal; more than doubled her quantity of milk within twenty-four hours and immediately commenced gaining flesh and thriftiness.'

IN curing hay, a mistake is often made, by sun drying too much. In fact a large portion of the nutritive properties of the grass is exhaled by long exposure to the action of the sun, leaving the stock, so to speak, the cob instead of the corn. After an exposure sufficient to wilt the grass, it may be cured in the cock, and thus be made to retain the most valuable portions, too often given to the air, under the mistaken notion that this waste is indispensible to preservation in the mow or stake.

BRUISE or gravel is quickly cured by cutting away the hoof a little where the gravel went in. Then take a crooked awl and get out the dirt as clean as possible; work gunpowder into the cavity with the back of the awl and touch it with a hot iron; by putting the powder in two or three times in this way, it will clean all the gravel and dirt out. Then melt one part tallow and three parts resin and pour into the cavity, and the horse is fit for business.

PRINTERS sometimes make sad mistakes. A dancing master's card was made to read thus: "I offer my respectful *shanks* to all who have honored me with their patronage."

MILKMEN are happy fellows. They enjoy themselves at the watering places all the year round.

KEYSTONE HOUSE,

CHAMBERSBURG ST., GETTYSBURG, PA.,

Ayer's HAIR VIGOR,

For Restoring GRAY HAIR to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

THE reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the later, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer of the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

FORNEY'S

Horse & Cattle Powder.

This Preparation has become a great favorite with the people of Adams county—will thoroughly reinvigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the skeleton into a fine looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk and makes the Butter firm and sweet. In fattening Cattle it gives them an appetite, loosens their hides and makes them thrive much faster.

In all diseases of swine this article acts as a specific; by putting from a quarter to half a paper in a barrel of swill, the diseases will be eradicated or entirely prevented. If given in time a certain preventive for Cholera. Price 10 cents per pound paper; 3 for $1.

FAHRNEY'S BLOOD SEARCHER,

Or PANACEA.

THIS well known and popular medicine was formerly put up in packages by Dr. Fahrney, near Boonsboro', Md., but is now put up in a liquid form, and is highly commended for all Chronic or long standing Diseases. Hundreds of testimonials could be given, but the following will suffice:

"Dr. P. Fahrney's Blood Searcher or Panacea," is a medicine that we can recommend to those who are afflicted, having used it in our own family and furnished our friends with the article; we can, therefore, from experience say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is well to keep it always in the family where there are children or those subject to colds or other sickness. It is compounded from medicinal Roots, Leaves, Barks, Seeds, and Berries, which are said to be entirely free from poison. We are personally acquainted with the proprietor, who was our family Physician for several years, and we were at one time raised from a bed of affliction under his judicious treatment.—*Christian Family Companion.*

FAHRNEY'S BLOOD SEARCHER.—From our personal acquaintance with Dr. P. Fahrney, and from the reputation of the above named medicine in the community where he lives, we can cheerfully recommend it to a fair trial to all who may need a PANACEA for the physical maladies of mortality—until the great PANACEA for all diseases shall be found in the leaves of the tree of life.—*Prophetic Watchman.*

Sold by Tolman, Crosby & Co., Wholesale Druggists, Chicago, Ill., and by B. A. Fahnestock's Son & Co., Pittsburg, Pa.

Also by A. D. BUEHLER, Gettysburg, Dr. JAMES CRESS, Littlestown, and SHIELDS & MUSSELMAN, Fairfield, Adams county, and by Storekeepers and Druggists generally.

POINTS OF EXCELLENCE.

Beauty and Elasticity of Stitch.
Perfection and Simplicity of Machinery.
Using both threads directly from the spools.
No fastening of seams by hand and no waste of thread.
Wide range of application without change of adjustment.
The seam retains its beauty and firmness after washing and ironing.
Besides doing all kinds of work done by other Sewing Machines, these Machines execute the most beautiful and permanent Embroidery and ornamental work.

☞The Highest Premiums at all the Fairs and Exhibitions of the United States and Europe, have been awarded the Grover & Baker Sewing Machines, and the work done by them, wherever exhibited in competition.

☞The very highest prize, THE CROSS OF THE LEGION OF HONOR, was conferred on the representative of the Grover & Baker Sewing Machines, at the Exposition Universelle, Paris, 1867, thus attesting their great superiority over all other Sewing Machines.

☞For sale by D. W. ROBISON, Gettysburg.

NOTICE.

THE undersigned, having had 17 years experience as a practical Operator on Sewing Machines, would recommend the Grover & Baker Family Machine as the cheapest and best machine for family use. The simplicity of construction and elasticity of stitch made by these machines are two very important points in their favor. 250,000 of these machines are to-day bearing witness to the truth of our assertions and the demand is steadily increasing.

We have also Shuttle Machines on hand for Tailors' and Coach Trimmers' use. Call and see us. D. W. ROBISON, Agent,

TO PHYSICIANS.

New York, August 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle,) leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopea, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist of 16 Years' Experience.

From the largest Manufacturing Chemist in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil; in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The constitution, once affected with Organic Weakness, requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT OF BUCHU, in affections peculiar to Females, is unequaled by any other preparation, as in Chlorosis, or Retention, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price $1 25 per bottle, or 6 bottles for $6 50. Delivered to any address. Describe the symptoms in all communications.

Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

DODGE'S

PATENT

REAPER AND MOWER,

AND SELF-RAKER.

THIS machine has met with the most complete success. In every section where it has been introduced, it has taken precedence over those machines which have heretofore ranked as first class. It is a perfect Self-Raker and a superior mower.

A careful examination will convince any one of its superior merits over all others, in *simplicity, strength and durability.* As a self-raking reaper it has no equal to our knowledge.

The Dodge Rake is attached to no other machine in the United States except to this machine. Built by the Dodge & Stevenson Manufacturing Company, Auburn, New York.

READ THE NOTICE OF THE COMPANY.

TO OUR AGENTS.—Having been informed that certain manufacturers in Ohio and elsewhere are building Reapers with Dodge's Self Rake attached, we ask you to furnish us the names of all persons vending or purchasing such machines, as we have never licensed any person or persons to manufacture said Self-Rake, or any part thereof, and will prosecute to the full extent of the law, all persons manufacturing, selling or using said Self-Rake, except of our own manufacture.

JOHN A. DODGE, Pres't.

We have that confidence in this machine that we are willing to let those wanting a machine test it with any other machine they may wish, and keep the one that gives the most satisfaction.

IMPROVEMENT IN

SAWING MACHINES.

THE undersigned has obtained a patent from the United States for an IMPROVEMENT IN SAWING MACHINES, to which he desires to draw public attention. It is designed for the sawing of cord wood, cutting into three pieces at one operation. The machine is turned by hand, and one man can easily cut six cords of wood in a day with it. But little power is required, any boy being able to turn it. Added to these advantages, the machine is strong and durable, and not likely to get out of order. Nothing more serviceable in its way has yet been introduced.
